*Experience*

**Core Home**

Oct 23' - Present  
New York City, NY.

**Junior Industrial Designer**

- Translated trends and client briefs into the design and development of tabletop seasonal collections, collaborating with manufacturing partners in China to bring products to life.
- Developed user-centered products from conceptualization through final production, ensuring alignment with the design vision and strict cost constraints to maximize profitability.
- Produced photorealistic renderings for packaging and in store merchandising renderings for client pitches and presentations using keyshot 11

**COTY x SCAD**

Jan 23' - Mar 23'  
Savannah, GA.

**Project Lead**

- Researched product and packaging innovation. Led a multidisciplinary team of 20 students to produce a 360° product concept and marketing campaign.
- Identified innovation opportunities responsive to current and future trends in sustainable systems
- Produced 2-D concept illustrations and 3D CAD renderings using Rhino and Keyshot. Rapid prototyped concepts with own 3D printer.
- Presented to senior innovation leaders from France, UK, and NY resulting in positive feedback and an additional collaboration for SCAD.

**Techronic Industries**

Aug 22' - Dec 22'  
Charlotte, NC.

**Industrial Design CO-OP**

- Collaborated with engineers and marketers through the conceptualization, visualization, and development of innovation opportunities from consumer insights to reinvent home appliances.
- Created mock up and rough prototypes to test out ergonomics and feasibility
- Developed storyboards to successfully communicate innovation opportunities with stakeholders.
- Researched emerging trends and real-life insights to develop a self-started project with tight deadlines. Currently under legal team for intellectual property protection.

**Impactive**

Jun 22' - Aug 22'  
Remote.

**UX Design Intern**

- Redesigned administrator's dashboard alongside software engineers in response to user needs.
- Collaborated with product, interaction, and strategy teams to conduct user and market research.
- Prototyped and user-tested products in Figma.
- Monitored design implementation by software engineers.

---

*Education*

**Savannah College of Art and Design (SCAD)**

B.F.A Industrial design 2023 - Suma Cum Laude  
Minor UX Design

---

*Leadership*

**SCAD**

Aug 21' - June 24'

**Resident Assistant**

- Coordinated events fueling residents' academic and personal growth.
- Solving conflict in a fast paced changing environment responsive to residents' needs.

**SCAD x IDSA**

Jan 21' - June 24'

**Event Coordinator & Community Outreach**

- Coordinated workshops with professors and industry professionals to provide learning opportunities for SCAD's Atlanta and Savannah Industrial Design students.

---

*Awards*

- Milan Design Week 2024 exhibition
- 3 European Product Design Awards
- 3 International Design Awards
- 15 Indigo Awards

*Software*

Rhino  
Solidworks  
Keyshot  
Adobe Creative Suite  
Figma  
Krea  
Midjourney  
Vizcom

*Skills*

Creative problem solving  
Resourcefulness  
Motivate and direct others  
User research & testing  
Sketching ideas  
3D CAD modeling  
Digital prototyping  
Model Building
